Specialization: Specialized computer systems (SPECIALIST DEGREE)
2005 - 2009 **Chernihiv State Technological University**, Chernihiv
Specialization: Specialized computer systems (BACHELOR'S DEGREE)

PROGRAMMING LANGUAGES AND FRAMEWORKS

Python / Django	The main language which I'm using in work process, above all in web-development (with Django framework) but also in programming watchdogs, scripts for deploying/updating servers.
JavaScript	Commonly used in work process. I understand what's going on, trying to learn it in deep in my own time. I can maintain existing code and make changes in it.
Ruby / RoR	Fluent knowledge. But to learn it is interesting for me. Use mainly for funny/pet projects.
Lisp	It's my goal #1 to learn it. Once I liked its ideology "Programmable programming language". Every time I face it - like more and more.

PLATFORMS AND TECHNOLOGIES

Linux / Unix	Extensive using of Linux both for personal and enterprise use (distributions: RHEL, CentOS, Ubuntu). Also MacOS X for personal use at laptop
Libraries	FeinCMS, Jinja, Celery, South, Haystack
Databases	MySQL, PostgreSQL, MongoDB, Redis
Deployment	Vagrant, Puppet, Fabric, Jenkins
Bug tracking	Jira, Basecamp, Redmine
Revision Control	Used CVS at University, SVN both at University and work, Git at work, have been using Mercurial for the last 2 years whenever possible

CERTIFICATES

Oct. 2012 - Dec. 2012	M101 , MongoDB for Developers Certificate
-----------------------	---

LANGUAGES

Ukrainian	mothertongue
Russian	mothertongue
English	proficient
